

MGA, NIAB & Future Biogas Ltd

**Cordially Invite You To The NIAB/MGA Regional Maize
Trials Open Day**

Wednesday 4th July 2018

Trials on view will include:

- The role/need for phosphate and other more novel starter fertilisers
- The potential of foliar feeds to optimize crop growth and reduce the production of the greenhouse gas emissions.
- Nitrogen response trials
- Type of nitrogen trial

As well as the opportunities to walk and learn about the trials there will be a chance talk to MGA & Future Biogas representatives

Meeting at
Hillington, Norfolk, PE31 6DS

Programme

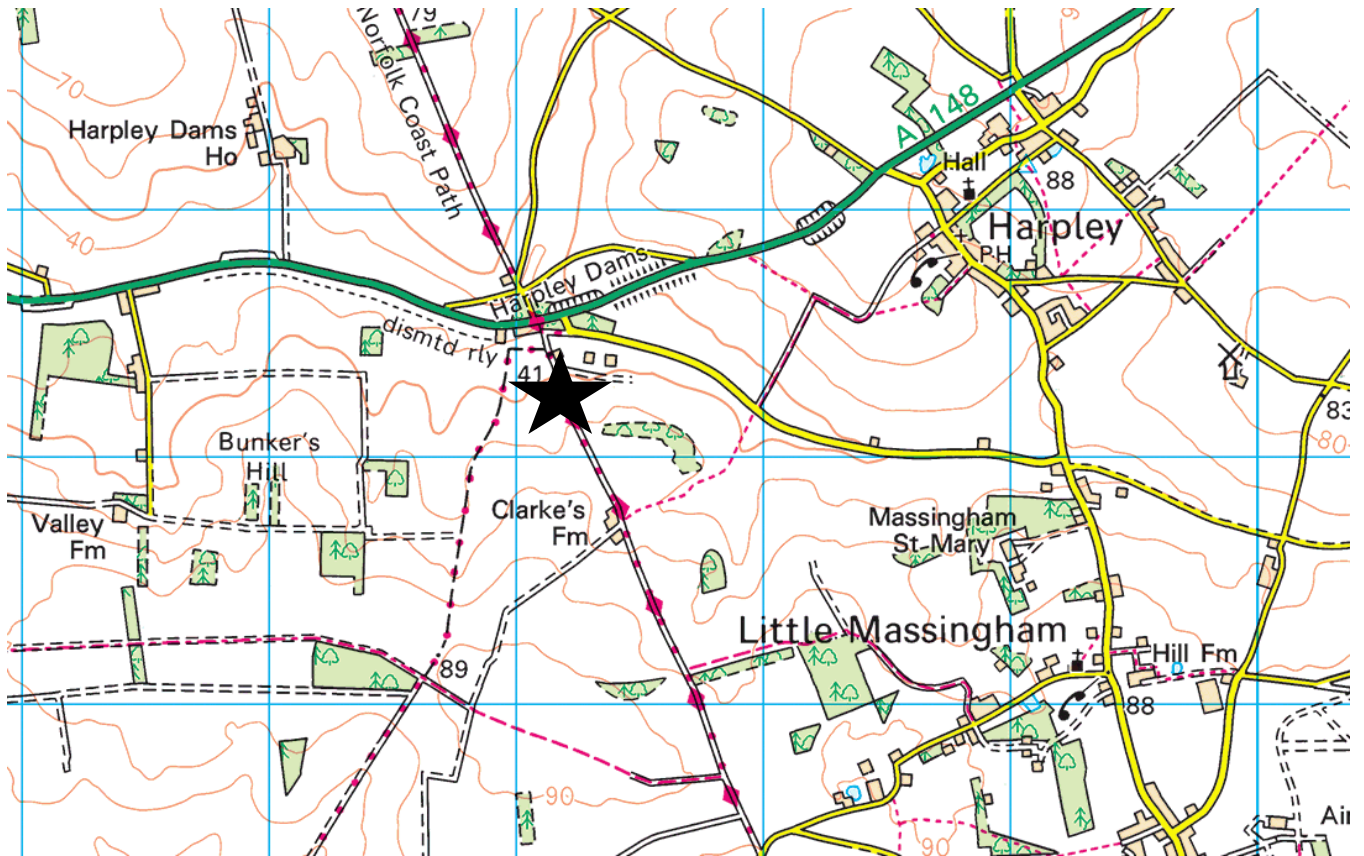

10:00am Arrival
10:30am Trials Tour
12:30pm onwards Hog roast and Refreshments

Plus: NRoSO & BASIS points available

**We would be grateful if you could confirm your attendance by
Tuesday 12th June by emailing jon.myhill@futurebiogas.com**

We would like to thank Turnstone Farming for their support
