

MAIZE GROWERS ASSOCIATION

THE ROLE OF MAIZE IN THE NEW FARMING WORLD

MAIZE CONFERENCE 2021

This year, we are running an online conference due in part to suspected travelling restrictions, but also in order to be more accessible to those further afield and with busy calendars. We are splitting the conference into two parts, the first on 23rd February from 10am to 1pm, and the second on 2nd March from 10am to 1pm. There will be different speakers at each event, and half of the MGA small plot trial results will be covered each day.

For access to the links to our 2021 conference, you must email the MGA office with your name and postal address. Once we have received your email and payment, we will post hard copies of the papers from each of the conference speakers and will email through the links to each event. The cost will be £10 to members, and £30 to non-MGA members. If you decide to join the MGA, the £30 fee will be removed from the first year's subscription. Both costs are plus VAT. The single fee will gain you access to both parts of the event.

23RD FEBRUARY AND 2ND MARCH 2021

10AM—1PM

2021 Conference Topics

Main speaker papers

- Min-till
- Maize and beans
- Life without glyphosate
- Carbon footprint of maize
- Farmer speaker—How and why we farm the way we do

To book your place, please contact us on:

MGA 2020 small plot trial results

These will be presented over four half-hour slots, two on each day, to allow you to better absorb the results from each trial. This extended time will allow us to include tips and tricks on how to incorporate what you will learn from our trials this year, and in previous years, into your own maize growing. Subject areas covered will include:

HERBICIDES

FUNGICIDES

SEED RATES

ROW WIDTH

DRILLING DEPTH

DRILLING TIMING

SEED DRESSINGS

STARTER FERTILISER

BIOSTIMULANTS

NITROGEN FERTILISER AND N INHIBITORS

UNDERSOWING

COVER CROP DESTRUCTION

HARVEST DATE PREDICTION

Plus results from our new-to-2020 south west trial site, supported by Wessex Water.
