Maize Eyespot

The MGA has received a request for help from NIAB forage division regarding maize eyespot. The team at NIAB are keen to gain more knowledge regarding

the different strains of the disease. We are therefore asking MGA members to help by sending the project team, any samples you may get over the coming months.

Please send your samples to **Sandra Chapman**, NIAB Park Farm, Villa Road, Impinton, Histon, Cambridge, CB24 9NZ. Please ensure that your samples are sent fresh, in a plastic bag with a paper towel/tissue. Many thanks

Morley Innovation Day

The MGA are happy to be attending the Morley innovation day this year on Thursday 22nd June at Burfield Hall Farm, Morley Lane, Wymondham, NR18 9BT. If you're in the area come and visit us at our trade stand. The day will run from 10am-2pm entry is free to all you just need to register online at

niab.com/morleyinnovation-day-eastanglia-22-june-23

The **Morley Innovation Day** in Norfolk showcases the latest arable advice and research from UK agribusiness and research organisations.

The event is a mix of field-based demonstrations and static exhibits.

NEW

Plug into nitrogen from a sustainable source with BlueN.

Capture something incredible

BlueN™ is a nutrient efficiency optimiser which captures nitrogen from the air for use by the crop throughout the growing season.

SAVE THE DATE! WEDNESDAY 26TH JULY

We are once again going to be giving our members the opportunity to look at the trial work that we do at our South West Trial Site in Shepton Mallet. On Wednesday the 26th July from 6pm-8pm we will be inviting you all to attend our annual opening evening. Attendance is free and open to all; it is an excellent way of showcasing the observations that have been made. There will be full details to follow so watch this space

SAVE THE DATE! WEDNESDAY 9TH AUGUST

We are also holding our Morley trial site open breakfast on Wednesday 9th August at 8-9:30am. This again will be a great opportunity to see what different trials we are running this year. As with our SW trial site this open breakfast is

free and open to all who wish to join us. Full details to follow soon.

This is a reminder to all our commercial members regarding advertising. If you want to reach out to our over 500 members why not put an advert in the MGA Times. We offer different advert options as well as offering the opportunity for you to put inserts into the monthly mailings. For more information & pricing please contact Kate in the MGA office at info@maizegrowersassociation.co.uk.

Boost maize yields by 8%

When applied together **YaraVita BIOTRAC** complements the nutritional effects of **YaraVita CROP BOOST** (formerly Maize Boost). BIOTRAC activates the maize plant's metabolic processes to enhance nutrient use efficiency and tolerance to low temperatures. The two YaraVita products work in harmony to promote root and plant growth and efficiently use the plant's energy reserves, resulting in higher DM yields and improved starch levels.
